Readers

MTDialog targets decision-makers in the field of medical equipment, services and devices:

- medical equipment & supplies, wholesale & retail
- medical equipment & supplies, manufacturers & service providers
- hospital group purchasing organizations
- health insurance companies
- health policy

IVW-audited Circulation Breakdown

(average from 3rd quarter 2018 to 2nd quarter 2019)

Print Figure	2,566
Paid Circulation	1,770
Actual Circulation	2,195

For more than four decades the professional journal **MTDialog** has been a firmly established and highly renowned source of healthcare business and policy news among healthcare executives.

MTDialog is the official journal of the relevant professional associations (Bundesverband des Sanitätsfachhandels/BVS and Zentralvereinigung Medizin-Technik/ZMT).

Decision-makers in trade and industry, in service-providing companies, in politics, health insurance companies and hospital procurement use MTDialog as an important source of information. The journal is mainly distributed in German-speaking countries.

MTDialog provides pertinent information for economic success in the medical devices market in a reader-friendly way, clearly structured under the headings Medical Technology and Medical Supplies.

MTDialog reports every month on:

- healthcare developments, events and trends
- the effects of healthcare policy on the target groups
- customers of specialist retailers and the industry (hospitals, nursing homes, practice-based physicians and health insurance companies)
- sectoral marketing
- product innovations

We are dedicated to providing carefully selected information for a target audience. That way losses due to non-selective advertising are avoided.

- To: saurwein@mtd.de

MTD Terms and Conditions

(Excerpt – for details see www.mtd.de)

1. The term *advertising order* as used herein refers to the agreement to publish one or more than one advertisement, bound-in or loose insert or a digital advertising placement of an Advertiser.
2. Advertising orders are to be executed within one year of contract conclusion. Collective advertisements, inserts (loose and bound-in) and digital advertising placements are charged according to basic rates.
3. Discounts as described in the current rate card are only valid within one year of publication of the first advertisement.
4. The Advertiser is entitled within the period agreed upon to release additional advertisements/ digital placements in excess of the number covered by the contract.
5. If an order is not carried out for reasons beyond the Publisher's control, the Advertiser will be – irrespective of further legal obligations – short-rated and billed for the difference. There is no re-billing if publication was impossible because of force majeure.
6. Orders may be cancelled until the respective closing date.
7. Should advertising rates (print or digital) change, new rates come into effect at once unless otherwise agreed on by Advertiser and Publisher.
8. Position of advertisements (print or digital), loose or bound-in inserts is not guaranteed unless preferred position is purchased.
9. Advertisements (print or digital) which are not identifiable as such are clearly labeled "advertisement" by the Publisher.
10. The Publisher checks advertisements carefully before acceptance, but is not liable if misled by the Advertiser. The Advertiser assumes liability for all content of the advertisement, loose and bound-in inserts or digital placements.
11. The Publisher reserves the right to reject any advertisement due to content, origin or material, if the content violates law or official directives or if publication is unacceptable to the Publisher.
12. Insert orders will only be binding after submission of a sample. The Publisher does not accept any inserts which give the impression of being part of the journal. Inserts containing advertising material of further advertisers will not be accepted.
13. Proofs will only be submitted on request. The Advertiser is responsible for the accuracy of the proofs returned to the Publisher. If proof is not returned within the time set forth, the advertisement is regarded as valid for printing.
14. The Advertiser is responsible for the delivery of the advertisement and faultless printing or digital materials or inserts within the specified deadline. Press-accurate colour proof must be supplied for 4-c ads. If printing material does not meet the requirements, the Publisher will contact the Advertiser for re-submitting the file. The Publisher will only guarantee faultless printing of the advertisement when electronically delivered printing material meets the requirements as stated in the information sheet on *Electronically transmitted Printing Material*. The Publisher does not assume liability for telephone instructions and errors due to unclear writing. The Publisher does not assume liability for errors in printing materials detected only in print. This applies also to faulty repeat advertisements if the Advertiser does not report any error before going to press again.
15. All reasonable efforts shall be made to obtain the best possible reproduction of the advertisement – print and digital. The Advertiser is entitled to reduction in payment or a replacement advertisement if the advertisement is wholly or partly illegible, incorrect or incomplete – but only if the intended message is impaired. Further liability of the Publisher is excluded. Claims must be made in writing within 4 weeks from receipt of invoice and voucher – unless defects are not obvious.
16. Printing materials shall only be returned to the Advertiser on special request. They will be retained on file for 3 months after issue date, unless otherwise agreed upon.
17. Proof that the insertion order was fulfilled shall be supplied with invoice upon request – depending on manner and volume of the order, one copy of each page or part of the page containing an advertisement or a maximum of two copies of the issue in question.
18. The Advertiser will be charged for any pre-press work, any creating of digital advertisements and any changes that are in the Advertiser's responsibility or desired by the Advertiser.
19. A decrease in circulation does only affect the contract if actual circulation drops by more than 20 %. Further claims are excluded, if the Advertiser has been informed about the decrease in circulation early enough to withdraw from the contract before the insertion.
20. The Publisher will store and pass on replies to box number advertisements with due care. Registered and express answers to box number advertisements will only be passed on through standard post. The Publisher reserves the right to open responses received to exclude abuse. The Publisher is not bound to forward business recommendations and offers to act as agents.
21. Net payment is due within 30 days of the invoice date. The Publisher allows a 2 % discount for payment within 8 days of the invoice date and a 3 % discount for direct debit authorisation. In the event of delay in payment, the Publisher may charge interest on the overdue amount at a minimum of 2 % above Deutsche Bank base rate. The Publisher reserves the right to claim further default damage upon proof. The Advertiser may prove that no damage or minor damage was incurred. If payments are in arrears, the Publisher may suspend insertion of advertisements and require pre-payment for further bookings. Agencies are not allowed to pass on agency commissions to their clients.
22. German law applies. Place of fulfillment and jurisdiction is Geislingen/Steige.
